

Promotion of Farm-outs, Asset Sales & Trades

Promoting your project widely increases the number of interested companies so you receive more enquires and more offers. Finding that keen buyer is all important.

Use EzDataRoom's Project Promotion service to quickly and efficiently introduce your project to a receptive global audience of New Venture professionals.

Interested parties contact YOU directly, allowing you to engage immediately in technical and commercial discussions.

With over 1300 companies and 3500 key decision makers, like you, registered to receive our bespoke New Project email alerts, we deliver your Flyer and project introduction to the right people in the right companies right from the start.

The 3-month promotion service includes:

- Personalised New Project email alert
- Highly effective monthly reminder email
- Inclusion on our project listing web site
- Posters displayed at conferences
- Telephone introductions to potential investors

Our FREE to VIEW Project Listing web site receives ~1000 visits per week by companies looking for new opportunities.

Alternatively, if your project needs to be handled more discreetly, we can do that as well – just ask for more information.

Extend your reach to companies not initially prepared to travel, book hotels, obtain visas, etc with our unique online data room service that bridges-the-gap between your flyer and face-to-face meetings.

By giving interested parties easy (but secure) access to your project data from their desks anywhere in the world, you significantly increase the number of companies who will be interested in your project.

Promotion and an Online Data Room - a powerful combination for success
